SUMMARY

BSc IT student with hands-on experience in the MERN stack, Django, and cloud-deployed relational databases. Skilled in building multi-role web applications, responsive user interfaces, and secure RESTful systems. Seeking opportunities to apply technical skills in real-world production environments and grow as a Full Stack Developer.

SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Vite, Glassmorphism UI Design
Backend	Node.js, Express.js, Django, PHP, REST APIs
Database	MySQL, MongoDB
Languages	Python, C++, SQL
Tools & DevOps	Git, GitHub, VS Code, Vercel, Railway

PROJECTS

Multi-Role E-Commerce Platform (MERN Stack)

Developed a full-stack e-commerce web application featuring independent buyer and seller workflows. Implemented robust authentication, seller profile management, and an administrative approval dashboard for product verification. Designed using clean, responsive UI aesthetics.

Cloud-Hosted Task Management Application

Built and deployed a full-stack task management server using Node.js and Express. Integrated a remote MySQL database hosted on Railway. Features secure API endpoints for CRUD operations and client-side persistence.

Dynamic Resume Builder Website

Created a form-based resume application using React.js. Implemented structured live previews, responsive UI layouts, and highly reusable components for seamless document generation.

Expense Tracker & Financial Dashboard

Designed an interactive application to track income and expenses with real-time balance calculations, features client-side data persistence, and a clean user interface.

EDUCATION

Bachelor of Science in Information Technology

2023 - 2026

S.M. Shetty College, Powai, Mumbai

Higher Secondary Certificate (HSC) — Technical Studies

2021 - 2023

Shivaji Technical College, Ghatkopar, Mumbai

ACHIEVEMENTS

- Designed, built, and successfully deployed a personal developer portfolio web application using Vite and Vercel.
- Developed full-stack applications integrating both NoSQL (MongoDB) and relational (MySQL) database architectures.
- Actively building a portfolio of open-source projects on GitHub to demonstrate version control and system architecture skills.
